Python Dev.

Globant

WHO AM I?

Python-Dev @ k12

Context Aware Systems @
Universidad Nacional de Colombia

Algorithmic thinking lecturer @
Universidad Javeriana de Colombia

I have worked in research projects related to assistive technologies. Also, I'm interested in computational semantics (Ontologies / Knowledge graphs).

What is a knowledge graph?

Knowledge represented as entities, properties and relationships.

Knowledge Graphs - The Power of Graph

GO TO THE REPO!

In this repo you will find:

- Some slides I selected for this presentation.
- A jupyter notebook to explore the graphs.
- A Flask App to see everything working.
