Exploring knowledge Graphs with python

Cristian Narvaez
Python Dev.

Python-Dev

Context Aware Systems @
Universidad Nacional de Colombia

Algorithmic thinking lecturer @
Universidad Javeriana de Colombia

I have worked in research projects
related to assistive technologies.
Also, I'm interested in
computational semantics
(Ontologies / Knowledge graphs).

GO TO THE REPO!

In [this repo](#) you will find:

- Some slides I selected for this presentation.
- A jupyter notebook to explore the graphs.
- A Flask App to see everything working.
